

ACKNOWLEDGEMENT

We would like to express our sincere gratitude to all the lecturers and staff of the Department of Computer Science and Engineering for extending their help and guidance towards our project.

We would like to thank the college management and express our sincere gratitude to **Dr. J Surya Prasad**, Director/Principal of PESIT (BSC) have given me the opportunity for the completion of this project.

We would like to thank **Dr. Sandesh B J**, Professor and Head of Department Computer Science and Engineering, PESIT (BSC) for giving us the support and encouragement that was necessary for the completion of this report.

We would like to thank our project guides **Ms. Prajwala**, Assistant Professor and **Ms. Evlin Vidya Latha P**, Assistant Professor for providing us the required assistance, encouragement and constant support which was of a great help to complete this project successfully.

Last but not least; the project would not have been a success without the support of our parents and friends.

Thank you,

Imran Pasha

ABSTRACT

Our mini project **EventZee** is a full stack web application that lets users know about all the ongoing and upcoming events and view details specific to a particular event. The front end of the application is built using JavaScript, HTML5 and CSS3.

Most of this project includes the frontend animation and display of an online website.

The database of the application is built using Firebase real time database. This enables the users to update the database in real time and also helps the users to store the data in the local file if they do not have proper internet connectivity.

EventZee is connected to the Real-time database using JavaScript. We have used Animation on Scroll which is a CDN available and supported by Google.

TABLE OF CONTENTS

Sl.no	Contents	Page No
1	Introduction	1
2	Project Requirements	2
3	Literature Survey	3 – 4
4	System Design	5 – 6
5	Implementation	7 – 13
6	Testing	14 – 15
7	Results	16 - 19
8	Conclusion	20
9	Reference	21
